ADMINISTRATION REPORT, 1888-89.

No. 510 of 1889.

To

W. H. PROPERT, Esquire,

Commissioner, N. D.

Ahmedabad, 31st July 1889.

Sir,

I have the honour to submit the following report on the administration of the Tálukdári Settlement Department for the year 1888-89.

2. The following table shows, at a glance, the total number and revenue of estates of all descriptions under management, and of the Tálukdári villages in Ahmedabad under revenue charge, in the year under report :—

	Number of Estates.	Aggregate Revenue for collection, 1888-89.	Amount realized by Sale under Decrees.
		Rs.	Rs.
Ahmedabad Tálukdárs under Act VI of 1862, Appendix I.	37	59,095	...
Ahmedabad Tálukdárs removed from Act VI of 1862 but continued under management, Appendix IA. ...	10		
Kaira Thákors under Act XXI of 1881, Appendix II....	52	96,822	...
Broach Thákors under Act XXI of 1881, Appendix III.	8	63,484	...
Minors' Estates under Act XX of 1864, Appendix V. ...	30	60,851	...
Miscellaneous Estates managed by agreement of owners, Appendix VI.	5	17,720	...
Estates managed under attachment for default, &c., Section 144, Revenue Code, Appendix VIII.	11	1,05,971	...
Estates—			
(*a*) Managed under Section 320 of Civil Procedure Code, Appendix IX, Part I	113	38,835	...
(*b*) Sold under Section 320... } Appendix IX, Part II.	4	.....	3,956
(*c*) Under process of sale ... } Appendix IX, Part II.	47	.....	...
Estates managed under Section 504 of Civil Procedure Code, Appendix X	9	14,721	...
Total ...	326	4,57,499	3,956
Tálukdári villages under revenue charge	356	3,71,508	...

3. The different classes of estates shown in the table above given are noticed, at some length, below :—

Encumbered Estates in Ahmedabad—Act VI of 1862.

4. The number of estates under Act VI of 1862 at the beginning of the year was 33. Five new estates were brought under the Act, and one removed from it during the year under report, thus making a net total of 37. These estates are shown in Appendix I.

5. The new estates added during the year are those of—

1. Aniáli Kasbáti. Bubáváv.
2. Jhánjarka.
3. Sinaj and Kánpura.
4. Rudátal, Mokápura, Rámápura and Pathápura.
5. Jethipura.

6. The usual notifications calling upon creditors to file their claims have been published, and the claims will be enquired into and settled in due course.

7. The one estate (Khoda in Sánand), removed from the Act, as above stated, has not been removed from management because the debt due by it to Government has not yet been fully discharged, though, owing to the expiration of the period of 20 years, it has ceased to be under the operation of the Act. A bond making over their estate to Government in mortgage for the debt due to Government will be taken from the Tálukdárs in accordance with the Government Resolution No. 2779 of 2nd April 1884.

8. In Appendix IA of the last year's report 9 estates were shown as removed from the Act, but as being still under management on account of the debt due to Government. Of these nine, two have paid off their debt and will disappear from the list from the next year (1st August 1889); but as the owner of one of these (Rájsing Devising of Dumáli) is a minor, it will, from the next year, be transferred to the head of "Miscellaneous," until a guardian to the minor is appointed and receives the management.

9. The estate referred to in paragraph 7 has been transferred from Appendix I to IA, *i. e.*, added to the list of estates which are not under the Act but are still under management on account of debt due to Government.

10. Of the estates at present under management, as per Appendices I and IA—

21 are directly managed by this office,
22 are managed by the Tálukdárs under the supervision of this office, and
4 are managed by creditors under special arrangements.

11. No advance has been actually taken from the Government treasury to pay off creditors in the year under report. The advance of Rs. 4,900 sanctioned in Government Resolution No. 5141 of 18th July 1889 will be availed of in the ensuing year.

12. The financial position of all the estates is shown in Appendices I and IA. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 8,140 were paid to private creditors and Rs. 21,596 to Government; and that a total sum of Rs. 1,67,097 remains to be paid, of which Rs. 60,722 are due to private creditors and Rs. 1,06,375 to Government.

13. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows :—

	1887-88.	1888-89.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	1,87,174	1,75,376
Added during the year	.....	13,736
	1,87,174	1,89,112
Paid during the year—		
To reduction of debt	11,798	22,015
To interest on loans	6,368	7,721
	18,166	29,736
Balance ...	1,75,376	1,67,097

14. It will be seen that larger payments have been made in this than in the previous year.

15. The average payment for the year under report is 15¾ per cent., and the reduction of debt is 11½ per cent., which is more than the average of the previous year. The reduction of debt, this year, would have been still greater, were it not that, as under Government Resolution No. 2128 of 10th July 1888, the accounts are closed at the end of July instead of March as heretofore, interest has been paid for 16 instead of 12 months. Thus a part of the money which would have gone in the reduction of the principal debt has had to be devoted to the payment of interest for 4 months.

16. There were 20 estates which stood indebted to Government at the end of the last year. Two of these have paid off their debt during the year under report. The number of such estates is, therefore reduced to 18.

17. Eight of these are, as stated in paragraph 8, no longer under the Settlement Act, because the period of 20 years' management has already expired. But in all these cases mortgage-bonds have been taken from the holders of the estates for the satisfaction of debt remaining due to Government. The remaining ten continue to be under the Act.

18. Some of the estates require a brief notice.

19. As stated in paragraph 25 of the last year's report, the estate of Makhiáv under Sánand has been managed for the last two years by a Taláti instead of being given in lease; and this year's revenue has, in spite of the badness of the season, justified the wisdom of the measure. The revenue, this year, is Rs. 10,695 which, together with that of a part of the estate which is under Dholka, gives a total of Rs. 13,495. This has enabled me to pay off the arrears of the interest on the Government loan, the current interest and a fair sum towards the reduction of the principal of the debt.

20. The repair to the large bund in Makhiáv, referred to in previous reports, has, this year, been completed. Rice is one of the staple products of the village, and the putting of the bund into proper order has ensured its prosperity in this respect. The bund serves a twofold object. It supplies water for cultivation of rice, and its water-saturated bed becomes afterwards available for wheat cultivation.

21. The substitution of cash rates for the Bhágbatái in the village of Melásna of the Makhiáv estate, referred to in paragraph 28 of the last year's report, has answered well this year. The revenue has amounted to Rs. 3,200 which does not compare unfavourably with the realizations under the Bhágbatái system in the previous years. In paragraph 6 of his review of this part of the report the Commissioner, N. D., says :—"I doubt the propriety of reducing the survey Jiráyat rates by one-half." This remark appears to have been made under some misapprehension, for the survey Jiráyat rates have been, not reduced, but *increased* by one-half.

22. The estate of Khoda is in a very impoverished condition. It still owes Government Rs. 5,752. The total debt against the estate was settled at Rs. 9,898, and during the 20 years' management it has been reduced to Rs. 5,772 only. Owing to successive bad seasons and the apathy of the Tálukdárs a large amount of land is lying waste, and the village is going from bad to worse. The principal crop being rice, and the water brackish, it is difficult to induce cultivators to take up land unless it is settled on light Bighoti rates. It will be necessary to take some special measures to increase the income of the estate.

23. The discharge of the debt due to Government by the Eyawa Estate is drawing its slow length along. The interest for the future on the debt has been remitted by Government Resolution No. 1608 of 21st February 1884. But it will still take some years to liquidate the debt, without interest, at the rate payments are being made by the estate. Last year it paid Rs. 115, and this year Rs. 45. The period of 20 years having expired also in this case, a bond to the effect mentioned in paragraph 7 has been taken from the Tálukdárs.

24. There is no estate under the Act in Viramgám. That of A'nandpura, though out of Act, is still under management for the debt due to Government. The debt at the beginning of the year under report was Rs. 390, in reduction of which Rs. 250 have, this year, been paid. The estate will, therefore, be free next year.

25. The estates of Gánol and Dumáli under Dholka have also gone out of the Act. But they still continue under management for the liquidation of the debt due to Government.

26. Gánol is leased to the Tálukdár for a yearly payment of Rs. 1,464. It will still take about 4 years for the debt, which stands at Rs. 4,440, to be fully discharged.

27. There are distinct shares in Dumáli, which have also been left with the Tálukdárs subject to certain annual payments. But the Tálukdárs are in a wretched condition. The village, the chief produce of which is rice, has greatly deteriorated within the last few years. One of the sharers, Raghábhái Abhesing, having died without male issue, a dispute arose as to succession between his daughters and the other sharers. But I called both parties together, put the case before each in the light of its own interest, and have, at last, succeeded in amicably settling the dispute. The case will not go into the Civil Court to the ruin of both.

28. Most of the villages of the estates of Latifkhán and Báwásáheb of Dholka are in Dholka, but they are not Tálukdári, and are managed only as adjuncts to their Tálukdári estates (Návda and Pánvi) in Dhandhuka.

29. Of the encumbered estates in Dhandhuka, those of Samadiala and Návda have been making very fair progress towards the liquidation of their respective debts, and so also the estates of Bhoka Oghad and Nája Ebhal in Bagad.

30. But the payments of Punja Vikamsi in Bagad, Bulákhi Modji in Hadmantála and Wálji Modji in Kinára are as unsatisfactory as before. When they came under the Act they made promises of large payments, but have failed in their engagements. I have in previous reports referred to their dishonest conduct.

31. The different estates in Bodána are a mixture of good (comparatively good) and bad. In these estates the creditors have not been paid off by advances from the Government treasury; and as now only about 8 years remain of the period of 20 years' management under the Act, there is no chance of their receiving their dues in full at the rates payments are being made ever since the estates were brought under the Act in 1877. But as no debt due to Government can be extinguished even after the expiration of the period of 20 years, it is a question worthy of consideration whether the creditors should not be paid off by an advance from Government and saved from loss.

32. With the exception of one, the different estates in Khokharnesh are making fair payments, and at this rate their debts will be discharged within the prescribed period. In their case there will be no objection to pay off the creditors by a loan from Government. I have already made an application in my letter No. 405 of 24th June 1889 for an advance. This has been sanctioned in Government Resolution No. 5141 of 18th July 1889.

33. The debt settlement of the two estates in Bela, as reported in my letter No. 380 of 17th July 1888, was sanctioned by Government Resolution (No. 5506 of 14th August 1888) in the year under report. I have paid to the creditors Rs. 1,400, being the accumulated balance of this and the previous year, *i. e.*, Rs. 700 a year, whereas the estimate given by the Chárans Tálukdárs was Rs. 2,400. The other sharers in the village lately petitioned me to be taken under the Act, but I have declined to accede to their request.

34. Of the encumbered estates in Gogha, those of Bhojpura and Bhawánipura require no remarks. The former is in a fair way of discharging its debts within the proper time, and the lands of the latter have been given to the creditors to be enjoyed for 20 years and then relinquished.

35. In Awánia there were as many as 15 different estates. For full particulars and for the difficulties I have had to encounter in the settlement of these estates, I beg to refer you to my reports noted in the margin. Up to last year all but two were settled. Portions of the lands of the estates have been sold to the creditors in satisfaction of their claims, and the rest of the estates have been removed from the Act and restored to their owners. In this settlement there were only two dissentients—Sumrábhái Champábhái and Bhupatsing Sawábhái.

No. 182 of 19th June 1884.
No. 167 of 20th June 1885.

36. This year I took my camp to Gogha with the object, among others, of settling with the creditors of these two remaining estates. Sumrábhái has since died, and though his son Virábhái gave some trouble at first, he and his

principal creditors have, at last, come to terms. The principal creditors have been assigned lands out of the estate in satisfaction of their claims, and one or two small creditors will be paid off in cash. Virábhái's estate may, therefore, be considered as good as finally settled.

37. Bhupatsing Sawábhái is as objurate and troublesome as ever. In one of my reports quoted above, I have thus written of him :—"The greatest miscreant of them all is Bhupatsing Sawábhái No. 1, who led the opposition and dissuaded the others from coming to any fair compromise. He is the most heavily involved of them all, and he falsely gave his income at Rs. 1,100 a year when he first applied for the Act—an income which now turns out to be Rs. 256. He has married four wives, does not cultivate an acre of land, and now lives on the charity of his friends and relations. He would be a fit member of a communistic society.",

38. I have had more painful experience of Bhupatsing since I wrote the above. He is giving no end of trouble. He is a most dishonest man, but he is overreaching himself. Owing to his own folly, the lands of his estate have not been cultivated either by himself or others for some years, and he has not been able to pay in full even the Government Jama. He, at one time, agreed to sell some of his lands to the creditors. The lands were accordingly measured out and given over to the creditors. He was asked to be present when the lands were measured and set apart, but he did not, and afterwards raised objections. All this work was in vain. He again passed an agreement for the lands being given in a particular way. This was done, and the lands were again measured and set apart in the direction he desired. He again raised new objections, to which also the creditors agreed, helpless as they are under the Act. It was now thought that the troubles were at an end; the creditors purchased a stamped paper of the value of Rs. 45, and the sale-deed was actually written out. But at the last moment when Bhupatsing was asked to sign it, he demanded new terms from the creditors, and refused to sign the deed. He has assumed this impossible attitude, and is trying to have it all his own way, because he knows that under that very defective Act (Act VI of 1862) he is master of the situation, and that the creditors are at his mercy. I have, however, made over the lands to the creditors, leaving the sale-deed to be executed hereafter when Bhupatsing comes to his senses. His remaining lands have been leased out for an annual payment of Rs. 180 for a period of 3 years. From this income the Government dues on the land will be recovered, and the remainder will be devoted to the payment of the small remaining debt.

Remarks on other Estates in the Ahmedabad District.

39. I think I have said enough in my previous reports, particularly in my last two reports, on the condition of the Thakardas of the Chuwal under Viramgám, and on the manner in which these unfortunate wretches are defrauded by unscrupulous Banias, and will now drop this troublesome subject.

40. There is nothing more to be said about the Kasbáti villages of the Viramgám Táluka than what has already been said in paragraphs 44 to 46 of the last year's report. The renewal of the leases of these villages is deferred till the introduction of the revision settlement in the Viramgám Táluka.

41. In clause 7 under paragraph 14 of Government Resolution No. 4580 of 27th June last, Government have said that regarding the Kasbátis "no special orders seem necessary." I beg to refer you to paragraph 4 of my letter No. 608, dated 20th December 1887, and to state that no orders have been passed on the question therein raised relating to the Kasbáti villages in Viramgám.

42. The amount of Bápumia Shermia's lease of the 11 Khálsa villages of Dholka, referred to in paragraph 47 of the last year's report, has been fixed at Rs. 19,500 by Government Resolution No. 706 of 28th January 1889. By desire of the Collector of Ahmedabad I have drawn up a draft lease of the new settlement.

43. This draft, with some additions and modifications, has been approved of, and the lease will now shortly be issued.

44. The condition of the Gangad Estate, referred to in paragraphs 35 to 43 of the last year's report, continues to be nearly the same as before.

45. None of the heavy suits in which the estate is involved has yet been finally decided, and that wretched boy Náhnbha is playing into the hands of the very parties which have brought so much ruin on the estate and himself.

46. As already stated before, the secured debt on the estate was Rs. 1,07,000 which by accumulation of interest amounted to Rs. 1,58,700. Not a rupee was paid towards this debt during the late Thákor's life-time; but I have, during the last two years and a half, paid Rs. 30,000, that is, more than one-fourth of the principal debt. The exact amount of the unsecured debt or kháta debt is not yet known; but I have received decrees for execution for Rs. 1,11,793, most of them bearing interest at 6 per cent. The tentative arrangement made for the payment of this debt will be seen from the following extract from my report to the Collector of Ahmedabad on the subject:—

"The Gangad Estate in Dholka was placed under attachment for the security of Government jama on the death of the late Thákor Gagubha Abhesingji in 1887.

"The succession to the estate is disputed between the late Thákor's surviving son Náhnbha and one Juwansing who alleges himself to be the posthumous son of Náhnbha's elder brother Bháisáheb who predeceased his father, and the case is pending in the Court of the First Class Subordinate Judge of Ahmedabad.

"The estate was heavily involved in debt during the life-time of the late Thákor. This debt may be divided into two parts, (1) that incurred on a mortgage of some of the villages of the estate, and (2) that incurred on personal security.

"The principal of the secured debt is Rs. 1,07,000. But by the accumulation of compound interest at the rate of nearly 9 per cent. the amount has considerably increased. Not a rupee was paid during the late Thákor's life-time towards the liquidation of this debt. But since the estate has come under Government management since 1887, the surplus income of the mortgaged villages is devoted to payment of this debt. Rs. 25,000 have already been paid.

"The claimants of the unsecured debt have obtained decrees against the estate, some by arbitration and some by regular suits in the Civil Courts. These decrees amount to Rs. 1,11,793, and most of them bear interest at the rate of 6 per cent.

"One of the decree-holders having brought a Darkhást from the Civil Court for the execution of his decree, a notification was issued under Section 322 A of the Civil Procedure Code, inviting all persons having claims on the estate to file their claims, and, as above stated, decrees to the amount of Rs. 1,11,793 have been filed. Probably there are still some more claims, which have not been decreed yet, or which, though decreed, cannot now be filed for satisfaction.

"It next became necessary to determine in what manner these decrees should be satisfied, by selling a part of the estate, or by instalments from the surplus revenue of the unmortgaged villages if they could be discharged in this manner within a reasonable period —about 20 years.

"As above stated, the whole estate is under attachment for the security of Government jama, and some of its villages are held in mortgage on account of the debt, referred to in paragraph 4. As, therefore, the whole estate is already under attachment, and as the surplus income of some of its villages is devoted to the discharge of the debt in mortgage, the income of the remaining portion of the estate is held to be under attachment for the satisfaction of the decrees received as stated in paragraph 6.

* * * * *

"It will be seen that on this basis the gross revenue of the unmortgaged villages, &c., has been estimated at Rs. 28,000, the expenditure at Rs. 19,000, and the surplus revenue available for the satisfaction of the decrees at Rs. 9,000. But to satisfy the decrees, together with interest, within a period of 20 years, an annual surplus of Rs. 10,000 is required, whereas the estimated surplus is Rs. 9,000, there being a difference of Rs. 1,000. But this difference is not large, and is not of much consequence, and it may disappear in such a long course of time as 20 years. Besides, the scheme is only tentative as it must necessarily be; and if further experience of 2 or 3 years shows a material diminution in the required surplus, other measures for the satisfaction of the decrees will have to be considered."

47. There is no doubt that there is still some other debt besides that mentioned above; and Náhnbha has been bribed into the admission of a preposterous claim of nearly half a lákh of rupees of the late Kárbhári Maganlál Bháishankar

48. I have sent into Court this year Rs. 9,000 in payment of this decree debt.

Season.

49. The season this year in Ahmedabad was, as is well known, very bad. Owing to want of early rain, the rice crop was almost a complete failure, and the kharif crops, bájri, &c., were very scanty. Were it not for the rain which fell in November, the agricultural condition of the district would have been most deplorable. This rain was very serviceable to the cotton and wheat crop. But the wheat grown by well irrigation was, in many places, much damaged by the rust brought on by cloudy weather. The other crops, such as gram, &c., sown consequent on the November rain, also did not thrive for want of cold and moisture.

ENCUMBERED ESTATES IN KAIRA.—ACT XXI OF 1881.

50. Kaira is, as usual, happy in having no history to relate.

51. By the terms of Act XXI of 1881, no further admissions of encumbered estates are allowed. The number of estates under management under the Act was, therefore, the same as in previous years, 52.

52. But out of this number, 2 estates—that of Bhánpura under Borsad and that of Sáheba Fattu of Padál under Thásra—having paid off their debts, they have been removed from management under the Act by notifications published in the *Government Gazette* of 11th July 1879.

53. Another estate, that of Jáfumia Nachumia of Málvan, has also nearly discharged its debt to Government. Only Rs. 20 remain to be paid. This estate, therefore, may be considered to be as good as freed of its debt.

54. The Thákor of Bhánpura, however, has applied for his estate to be kept under the management of this office for a period of 5 years. I have forwarded this petition to you with my letter No. 470 of 13th July 1889, for orders.

55. The number of estates under management under the Act at the end of the year is therefore 50.

56. An advance of Rs. 2,500 was taken from the Government treasury in the year under report to pay off the creditors of Rattansing Jijibhái of Kaira, secured on house property, as explained in my letter No. 616 of 13th November 1888, and sanctioned in Government Resolution No. 8042 of 3rd December 1888. Rs. 2,000 of these have been paid to the creditors, and Rs. 500 remain to be paid pending the settlement of heirship to one of the creditors who is dead. This sum has been repaid into the Government treasury.

57. The financial position of each of the 52 estates is shown in Appendix II. An abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 2,955 were paid to private creditors and Rs. 31,811 to Government; and that a total sum of Rs. 2,43,062 remains to be paid, of which Rs. 7,691 are due to private creditors and Rs. 2,35,371 to Government.

58. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows :—

	1887-88.	1888-89.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	2,76,222	2,59,061
Added during the year	.....	561
	2,76,222	2,59,622
Paid during the year—		
To reduction of debt	17,162	16,560
To interest on loans	13,386	16,206
	30,548	32,766
Balance ...	2,59,060	2,43,062

59. It will be seen that the average percentage of payment is $12\frac{2}{3}$, and the reduction of debt is $6\frac{1}{2}$. This reduction would have been greater but for the reason stated in paragraph 15 above.

60. I have, in previous reports, explained the circumstances under which the Wánta of Dabhán in Nadiád, belonging to Thákors Rattansing and Wakhatsing of Kaira, is held by the Pátidárs of the village in lease for a fixed sum considerably below the real income of the land; and, as stated in paragraph 69 of my report for 1886-87, I have raised this payment to the figure of the survey rental. The Pátidárs, who claim to hold the land on the above-mentioned fixed rental, have, this year, filed suits against me and the Thákors to dispute the legality of the increase. I do not think, however, that they have any chance of success.

61. As stated in previous reports, some lands of the estate of Fattesing Bápuji have been sold. But the burden of debt is still very great, and it is necessary to sell more lands as opportunities offer.

62. The same is the case in some of the other estates in Borsad and A'nand the annual surplus income of which can never be expected to pay off the debt within a reasonable period. Such estates ought never to have been brought under the Act.

Season.

63. The season in Kaira was also bad, but not so bad as in Ahmedabad and Broach. Somehow or other Kaira generally escapes lightly. But this year the tálukas of Kapadvanj and Mátar have suffered much.

ENCUMBERED ESTATES IN BROACH.—ACT XXI OF 1881.

64. As stated in the last year's report, the estates of A'mod and Dehej were released from management and restored to their respective Thákors in consequence of their having paid off their debts.

65. The number of estates under management under Act XXI of 1881 at the beginning of the year under report was, therefore, 8, which has, this year, been reduced to 7 by the removal of the estate of Rámsingji Khumánsingji from the Act in consequence of its having discharged its debt to Government.

66. As, however, Rámsingji Khumánsingji is a minor, and no administrator of the estate is appointed by the Civil Court, it will continue to be managed by this office until one is appointed and receives the management. It will, however, be transferred, in the mean time, to the head of "Miscellaneous."

67. I have stated in paragraph 67 of my last year's report that "Advances for Estates Nos. 8 and 10 (now Nos. 6 and 8) will be applied for when their circumstances permit of my doing so." Estate No. 6 must still remain without an advance for some time. As regards No. 8, I applied, in my letter No. 406 of 25th June 1889, for a partial advance and explained my reasons for doing so. But in your reply, No. 2080 of 9th July 1889, you have desired that the result of the suit referred to should be awaited.

68. The financial position of each of the eight estates is shown in Appendix III. An abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 4,075 were paid to private creditors and Rs. 12,971 to Government; and that a total sum of Rs. 1,04,791 remains to be paid, of which Rs. 40,198 are due to private creditors and Rs. 64,593 to Government.

69. The payments made on account of debt settlement during the year compare with those of the previous year as follows:—

	1887-88.	1888-89.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	1,61,980	*1,17,083
Paid during the year—		
To reduction of debt	46,448	12,292
To interest on loans	5,924	4,754
Total ...	52,572	17,046
Balance ...	1,15,532	1,04,791

* This amount is given according to the revised calculation made by the Accountant General.

70. The average payment is 14½ per cent. and the reduction of debt is 10½ per cent., which would have been still higher, but for the reason explained in paragraph 15 in regard to estates in Ahmedabad.

71. The great difference in the payments of the previous and the present year is owing to the A'mod Estate having paid in the former a large amount which it received from Government as refund of a claim made by it.

72. The decision of the Assistant Judge at Broach, dismissing the suit regarding the Sarod Estate for want of proper stamp valuation, referred to in the last year's report, has, at last, been appealed against to the High Court. The appeal will shortly come on for hearing, and whether this large estate will be involved in heavy, ruinous litigation, got up by unscrupulous persons for their own private gains, will depend on the decision of the High Court.

Season.

73. In point of season Broach has fared very bad, even worse than Ahmedabad. There are large arrears of revenue outstanding in the tálukas of Vágra and Jambusar.

MINORS.

74. There were 37 minors' estates under Act XX of 1864 at the beginning of the year under report; 3 were added, 1 released and 1 removed by the Civil Court during the year, making a net total of 38 at the close of the year.

75. With the exception of three in Broach, all these estates belong to Ahmedabad.

76. The estate of the Thákor of Mátar under Broach continues to be in a very good condition. It has to its credit Government paper of Rs. 10,000; a further sum of Rs. 7,000 is being similarly invested and Rs. 6,000 is in deposit in the A'mod Treasury.

77. There is some valuable land of this estate in Sarbhan in mortgage with a creditor. The land was originally assigned in Jiwái to a Bháyad who mortgaged it for Rs. 2,500. But the Bháyad's line has become extinct, there being only three widows alive. With the consent of the widows it is proposed to redeem this mortgage on behalf of the estate, the widows being assigned some subsistence allowance. The Thákor being a minor, the views of the Civil Court on the subject were sought and have just been obtained. The idea will be carried out shortly. The measure will, no doubt, be beneficial to the estate.

78. The decision of the Assistant Judge at Broach, dismissing the suit brought by some of the collaterals of the late Thákor to contest the genuineness of the present boy Thákor, which was referred to in paragraph 88 of the last year's report, has been appealed against to the High Court. The suit has been undertaken by some Vakils merely as a speculation.

79. The estate of Jitsingji Bharatsingji of Jhánor under Broach is also in good condition. It has to its credit Government paper of Rs. 7,000. The Government have lately sanctioned the payment of the Toda Girás allowance, which was in abeyance for the last 10 years. The amount of the accumulated arrears is Rs. 72,530. This money will shortly be invested. The estate has lands and allowances belonging to it in the Baroda State, but though repeated applications have been made to the Baroda authorities, nothing has yet been done. The estate has also some income in the village of Indi in Rájpur territory for which application has been made to the Political Agent, Bhopáwar, Sirdarpore, Central India.

80. The estate of Ráising Jibáwa requires no particular remark. The idea, mooted in paragraph 89 of the last year's report in regard to the mortgaged lands of this estate, is still in abeyance; but it is one which can be carried out to the benefit of both the lending and the borrowing estate.

81. The remaining estates are all in the Ahmedabad District. Only 8 of them are unencumbered, the rest being all encumbered.

82. Of the encumbered estates, the debt of that of Subámia of Ránpur was reduced to Rs. 2,000 last year. This debt has been paid off this year. But a new debt of Rs. 2,500 has been incurred on account of his marriage, this sum having been sanctioned by the Civil Court for the purpose. The boy's mother has, however, incurred a large private debt for the same purpose. Subámia has become of age, and the estate will shortly be handed over to him, and is sure to be involved in heavy debt again.

83. The debt of Gagubha Dipsingji of Rojka, which amounted to Rs. 50,000 bearing interest at 6 per cent., has been all but paid off. Only Rs. 3,114 now remain to be paid; and from the next year the surplus income of the estate will begin to accumulate to its credit. The boy is about 10 years of age, and a good fortune will greet him when he attains his majority. He is now being educated in the Tálukdárs' School at Wadhwán.

84. The arrangements, referred to in paragraph 97 of the last year's report for reducing the heavy rate of interest on the debt of the estate of Udesing Agarsing of Cher in Dhandhuka, have, this year, been completed, and the new creditor has made over the lands to the management of this office.

85. There is nothing particular to notice regarding the other estates. Some particulars about them have been given in the last year's report.

86. Appendix V shows that putting together all the minors' estates under the charge of this office, the total realizations, including the previous year's balance, were Rs. 93,162, of which Rs. 28,457 were paid for Government jama and maintenance and other charges, and Rs. 64,705 were partly devoted to the payment of debt and partly carried as savings. The total amount invested in Government securities is Rs. 30,000.

Education of Minors.

87. I have, this year, a brief but excellent record to show under this head. The Thákor of Utelia attends the Rájkumár College at Rájkot, and three boys from Ahmedabad, three from Kaira and four from Broach have been sent to the Tálukdári Grássia School at Wadhwán. One or two more will be sent there shortly. Two are being educated at Baroda which is near their village, and as for those whose estates cannot afford the expense of sending them to Wadhwán, arrangements have been made for their education in their village schools.

TA'LUKDA'RS' JUBILEE MEMORIAL FUND.

88. The amount in hand of the Tálukdárs' Jubilee Fund, referred to in the last two years' reports, is Rs. 20,220, of which Rs. 17,450 are in fixed deposit for a year in the Ahmedabad Branch of the Bank of Bombay at 4 per cent. interest, and Rs. 2,770 are in the Post Office Savings Bank at Ahmedabad. Rs. 4,000 remain to be collected. The successive bad seasons of the last two years have much affected the prospects of the fund.

89. I have, in previous reports, dwelt on the great desirability of re-establishing the Tálukdári School at Ahmedabad; but the Jubilee Fund above referred to is not sufficient for the purpose. If, however, Government allow, at least, the free use of the building known as the "Gáikwár's Haveli," and formerly occupied by the Arsenal, as a school-house, as requested by me, a start can be made with the interest of the Jubilee Fund supplemented by fees to be charged to the scholars. In course of time, with the aid of further subscriptions and an increase in the number of boys, the institution may be placed on a firmer basis. I respectfully commend this subject to your and the Collector's consideration.

MISCELLANEOUS ESTATES.

90. There are five estates under this head, the same as last year. Of these two are in Ahmedabad, two in Kaira, and one in Broach.

91. The estate of Musámia of Sháhalam has, as already stated, been freed of its debt, which was recorded when it was placed under the general supervision of this office. But Musámia has incurred some private debt, which now turns out to be much more than was stated in the last year's report. I have

asked for the exact amount of the new debt, but have not got it yet. Musámia desires the estate to be still continned under the supervision of this office, and I have allowed it to remain as it is. I think it would be to Musámia's interest if the management of the estate by his Kárbhári is brought under greater control than it is at present.

92. The balance of debt due to Government by the Kasbáti of Chándna was Rs. 3,016 at the beginning of the year. Rs. 250 have been paid this year towards the reduction of the debt. The condition of the village is still very unsatisfactory.

93. As stated in previous reports, the village of Dharoda in Mátar is managed in accordance with a Civil Court's decree with the mutual consent of its owners and their creditors. The debt against the village, which was Rs. 11,000, has been reduced to only Rs. 1,183. But nothing could be paid this year towards the further reduction of the debt, as the surplus income of the year has to be devoted to the satisfaction of a new decree for Rs. 1,000 obtained by a banker of Ahmedabad against the Syads in respect of a share in the village purchased by him, and which was in dispute for some years past.

94. It will be remembered that the estate of the Kázi of Broach was up to last year managed by this office on account of his minority. He having attained his majority, the estate was restored to him last year. But at his request Government have sanctioned the retention of the management by this office so long as he desired. The debt, which stood against the estate when it was taken under management under Act XX of 1864 on account of the Kázi's minority, was all cleared off. But the Kázi and his mother privately contracted a new debt, which is now to be liquidated. In Resolution No. 7209 of 29th October 1888, Government sanctioned the raising of a loan to pay off this debt owned by a number of persons. But as it has since been deemed expedient not to raise this loan, the idea has been held in abeyance for the present.

GENERAL REVENUE ADMINISTRATION OF TÁLUKDÁRI VILLAGES IN AHMEDABAD.

95. There are 356 Tálukdári villages in Ahmedabad under the revenue charge of this office; and their jama, inclusive of the Local Fund Cess, amounts to Rs. 3,71,508 for the year under report.

96. The nature of the season this year is described in para. 49. With the exception of about Rs. 4,300, the whole of the Government jama has been collected. The payment has been made, in many cases, as in the previous year, with borrowed money. The rice crop was almost a total failure; and in villages where rice is the principal produce, this failure has told heavily upon the Tálukdárs.

97. In the village of Návda in 1887-88 the whole income, after defraying expenses, fell short of the Government jama by Rs. 1,870, which the Tálukdárs made up from other sources. This year, the whole income, after defraying expenses, is Rs. 4,734, whereas the Government jama inclusive of Local Fund is Rs. 7,587. There is, therefore, a balance of Rs. 2,853 to be recovered from the Tálukdárs. It is a question whether this balance should be recovered when the village was entirely under Government attachment and management. A fair re-settlement of the Government jama in the case of this village is urgently required.

98. Of all the districts of Ahmedabad, Gogha has fared the worst this year. In several cases sums of money standing in the Mámlatdár's account to the credit of the Tálukdárs for repairs to the boundary-marks in their villages have been credited to Government in payment of their jama.

99. Loans made with caution and discrimination under the Land Improvement Act, and expended, under proper guidance and supervision, on the digging of wells and other improvements, are a great necessity in this táluka. The present Collector, Mr. James, takes a great interest in land improvements, and I respectfully hope he will direct his particular attention to Gogha.

100. The following table shows the collection and expenditure of the Local Fund in the Tálukdári villages of Ahmedabad in the year under report:

Name of Táluka.	Amount of Local Fund collected.	Amount of Local Fund expended.		
		Object.	Rs.	Total.
	Rs.			Rs.
Dholka ...	6,339	Repairs to dharmshálas	64	
		Repairs to school-houses	166	
		Repairs to wells	252	
		Deepening tanks	1,217	
		A new trough	647	
				2,346
Dhandhuka ...	12,167	Repairs to dharmshálas	19	
		Repairs to schools	373	
		Deepening tanks	198	
		New well at Pánchi	320	
				910
Viramgám ...	2,710	Repairs to schools	43	
		Repairs to wells	30	
		Deepening a tank at Madrisana ...	350	
				423
Sánand ...	3,636	Repairs to dharmshálas	25	
		Repairs to schools	38	
				63
Gogha	1,752	Repairs to dharmshálas	68	
		Repairs to schools	30	
				98
	26,604			3,840

101. The collection and expenditure, as shown above, compare as follows, with those of the previous two years:—

Year.	Amount collected from the Villages.	Amount expended in the Villages.
	Rs.	Rs.
1886-87	26,604	8,936
1887-88	26,604	9,752
1888-89	26,604	3,840

102. It will be seen that this year's expenditure compares very unfavourably with those of the two previous years.

103. The requirements of villages to be met from the Local Fund are, in the first instance, represented by the Mámlatdárs; and the Mámlatdárs do not seem to take much interest in Tálukdári villages. The Tálukdárs or their representatives in the Local Fund Boards are too ignorant or apathetic to press their claims. Unless, therefore, separate Boards, composed of representatives of Tálukdárs and presided over by the Tálukdári Settlement Officer, are created for the administration of funds belonging to Tálukdári villages, whose general condition calls loudly for improvement, they have little chance of receiving proper attention. Some such arrangement, which can easily be made by only an executive order of Government, is highly necessary, in view of the increased Local Funds decided by Government to be levied from Tálukdári villages in Resolution No. 4580 of 27th June 1889.

104. Appendix VIII. gives a list of Tálukdári estates under management for the collection of jama.

105. Government have passed orders in Resolution No. 4580 of 27th June 1889 on the subject of the revision of the survey assessment and jama of Tálukdári villages. What the effect of these orders will be, can only be known after actual experience. An early introduction of the revised jama is desired, but I do not think the revision work will begin for a year yet.

INSPECTION OF BOUNDARY-MARKS OF TÁLUKDÁRI VILLAGES IN AHMEDABAD.

106. There is nothing particular to be said under this head. The revised establishment of Inspecting Kárkuns sanctioned in Government Resolution No. 5626 of 18th August 1888 has come into force from the year under report.

107. The impracticability, almost the impossibility, of a handful of Kárkuns (each having some dozens of villages in his charge) properly inspecting and keeping in efficient repair some thousands of boundary-marks every year, the many openings for irregular practices on their part, and the difficulties in the way of exercising an effectual supervision over them, have been described in a former report. After a consideration and trial of several methods, I have come to the conclusion that the best way is to have stone marks ($2\frac{1}{2}$ feet in height and a foot in width on all the four sides, such as those made in Wadhwán and other places) buried in the ground, with only the top, about half a foot, visible on the surface. These stone marks do not require annual inspection or annual repairs. They will last for years and years. The first outlay will, no doubt, be large, but in the long run it will be the cheapest and the most enduring thing, requiring the least looking after; and there will be no room for irregular practices.

ESTATES UNDER SECTIONS 320 AND 504 OF THE CIVIL PROCEDURE CODE.

108. There were 292 decrees under execution under Section 320 of the Civil Procedure Code at the end of 1887-88.

109. The number of decrees received for execution during the year under report was 149 against 102, 130 and 116 respectively in the three preceding years.

110. Thus, the number for the year 1888-89 (inclusive of the previous year's balance, 292) was 441. In addition to this, 97 decrees were received under notices issued under Section 322, making a total of 538.

111. Of these—

221 were under management, as per Appendix VI, Part I,
41 were under process of sale, as per Appendix VI, Part II,
122 were returned to Courts, and
154 were under enquiry.

112. Of the 122 decrees returned to the Courts—

26 have been satisfied by compromise,
4 do by sale of defendants' property,
48 do by paying the amount from the defendants' property under attachment,
4 returned, as no bid was made for the property,
5 re-called by Courts,
22 returned to Courts, as the estates to which they related have been brought under Act VI of 1862,
13 returned to Courts without execution, as they were received after action was taken under Section 322 of the Civil Procedure Code and for other reasons.

113. The following table shows the manner in which the decrees received in each year and those brought over from the previous years were disposed of during the last three years:—

	1886-87.		1887-88.		1888-89.	
	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.
		Rs.		Rs.		Rs.
Returned after disposal by compromise, &c.	86	51,629	80	42,798	122	87,758
Under payment by instalments from revenues of estates taken under management	194	1,49,090	212	1,34,858	221	2,59,842
Under process of sale	25	29,063	25	33,686	41	55,317
Under enquiry	87	74,545	115	1,01,876	154	1,09,293
Total ...	392	3,04,327	432	3,13,218	538	5,12,210
Amount paid to creditors direct or through the Civil Courts ...	...	36,072	...	25,038	...	35,709

114. The decrees for the year 1888-89, above shown, belong to the Tálukás of Dhandhuka, Dholka, Sánand and Gogha in the Ahmedabad Collectorate.

115. There were 8 estates under management under Section 504 at the end of 1887-88, and 1 was added in the year under report. Thus, the total number under this Section is 9.

116. These are all in the Tálukás of Dhandhuka, Viramgám and Paránti] of the Ahmedabad Collectorate.

117. The money realized from the management and sale of the estates under decrees and sent to the Civil Courts in the year under report amounted to Rs. 35,709.

118. Under Section 31 of the Gujarát Tálukdárs' Act VI of 1888, the sanction of Government is necessary for the sale of Tálukdár's land. On this subject I have, in my letter No. 222 of 3rd April 1889, to the Collector of Ahmedabad, applied for instructions as to the procedure to be followed; and, pending the orders of Government, I have delayed the confirmation of a few sales that have taken place under Section 320 of the Civil Procedure Code since the passing of the Act.

119. I have, also, in my letter No. 208 of 25th March 1889, to the Collector of Ahmedabad, requested instructions on the following subject.

120. After action has been taken under Section 322A and the subsequent sections of the Civil Procedure Code, and after all the work has been gone through, the holder of the decree at whose instance the procedure is instituted comes, in some cases, to a private agreement with his judgment-debtor, and gives a Rájináma. Upon this, the Court which transferred the decree for execution under Section 320 writes for the papers of the case to be returned to it, as there is no longer a decree to execute. The consequence is that the other decrees and claims registered under the notification issued under Section 322A have also to be returned, and the whole labour and trouble taken in the matter go in vain. Not only this, but the understanding of the decree-holder with his judgment-debtor is, not unfrequently, of a very questionable character. There is no *bonâ fide* satisfaction of his claim. He extorts from his victim a new bond on harder terms, which he, soon afterwards, takes steps to enforce. He goes through the process of obtaining a decree, applying for its execution, &c., *de novo*. In such cases, the attachment of his property in execution of the decree is held *in terrorem* over his head for the purpose of further exactions. In such cases it would be well if the procedure once adopted under Section 322 could be carried out to its end, notwithstanding that the decree which gave rise to it has been withdrawn. In that case, there will be one chance less for the malpractices of dishonest creditors. If there be no provision in the Civil Procedure Code for or against the adoption of this course, it may be considered whether Government can lay down a rule to that effect under Clause 2 of Section 320.

Partition.

121. Only one village (Ukardi in Viramgám) was under partition at the beginning of the year under report. Measurements have been completed, and the two shares into which it is to be divided have been made. It now only remains for the parties to come and receive their shares. They have been summoned to do so; but it is feared that the party, against whose will the partition has been ordered by the Civil Court to be made, will make difficulties.

122. Under the new Gujarát Tálukdárs' Act (VI of 1888) 9 applications for partitions have been received. In these cases notifications, as required by Section 12 of the Act, have been served calling on those of the known co-sharers, who have not joined in the application and who object to the partition, to appear before the Tálukdári Settlement Officer to state their objections.

Suits.

123. There were 9 original suits and appeals pending at the beginning of the year under report, and 19 original suits and 3 appeals have been added during the year, making the total number to be 31.

124. Of the new suits, that filed by the Thákor Sáheb of Limbdi is a second edition, for 1886-87, of the one brought by him to dispute the levy of jama from the Grássias' half village of Akru in 1886, and which was decided against him by the Joint Judge, from whose decision he has appealed to the High Court.

125. A suit on the same subject has also been filed by the Grássias of Akru. Though in the name of the Grássias, it has, in reality, been brought at the instance of the Limbdi Darbár. I have reported on this suit in my letter No. 486 of 22nd July 1889.

126. The eight suits filed by the Pátidárs of Dabhán, Táluka Nadiád, for the declaration of their title to enjoy the Wánta of Dabhán on payment of a fixed rental, are important. Only a legal question about the construction to be put on the lease which the Thákors of Kaira, to whom the Wánta of Dabhán belongs, had passed to the ancestors of the present occupants, is involved in this case.

127. The suit filed by Rámsingji, the Thákor of Jhánor, to establish his title to the Toda Girás allowance which has been entered by the order of Government in the name of another Thákor of Jhánor, Khushálsingji Mohansingji, is also an important one.

128. Of the five cases decided during the year, one has been decided in favour of this department, one in that of the plaintiff, and three have been compromised. These cases do not call for any special notice.

129. The following table shows the cost of litigation incurred by the estates during the year under report:—

Total expenditure incurred by the Estates.	Recovered from Plaintiffs.	Net expenditure to Estates.
Rs. a. p.	Rs. a. p.	Rs. a. p.
543 13 4	212 14 1	329 15 3

Financial Review.

130. The following abstract gives, at one view, the financial results of the management of estates for the year under report:—

	Number of Estates.	Gross Revenue including previous year's outstanding Balances.	Total Revenue realized, including past year's Balance in hand.	Charges of all kinds.						Paid to creditors.	Balance in hand at the close of the year.	Outstanding balance written off.	Outstanding balance at the close of the year.
				Government dues.	Collection, &c., charges in the Tálukás.	Tálukdári Settlement Officer and Establishment charges.	Maintenance, education and other expenses of Tálukdárs.	Miscellaneous expenses.	Total.				
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Estates under Encumbered Estates Acts ...	107	2,42,701	2,64,928	64,129	13,426	8,269	37,998	3,579	1,27,401	79,548	57,209	2,246	28,695
All other Estates under management	219	2,68,873	3,46,729	72,635	11,631	6,762	23,594	9,547	1,24,169	57,718	1,60,601	2,675	46,044
Total ...	326	5,11,574	6,11,657	1,36,764	25,057	15,031	61,592	13,126	2,51,570	1,37,266	2,17,900	4,921	74,739

131. The details of this abstract will be found in Appendex XII.

132. The increase in the number of "encumbered" estates in column 2 is owing to a net addition of three estates under this head in the year under

report. But as the new estates, which are all in Ahmedabad, have but only recently come in, their regular management has not yet begun, and consequently their revenue or expenditure has not been entered into the figures of the rest of the columns of the abstract. The decrease under the heads of revenue, charges and payments to creditors is owing to two large estates (A'mod and Dehej) in Broach having gone out of management from the year under report.

133. In paragraph 5 of Government Resolution No. 2007 of 14th March 1889 on my last administration report, Government have remarked that "the Tálukdári Settement Officer may be reminded, however, that increase of 'charges,' which have actually been increasing steadily in the case of encumbered estates for some years past, will have to be very closely watched, if the increase in payments to Government and other creditors, necessary in order to clear these estates of debt within a reasonable peroid, is to be rendered possible." If, as would appear from this remark, Government are under the impression that *management* charges have been steadily increasing, the impression is, I respectfully submit, erroneous. I give below the management charges of the last six years, which are the years of my administration of the department, from which it will appear that these charges have not been "increasing steadily," but have wonderfully remained steady at nearly the same figure. If anything, they show a tendency to decrease :—

Year.	Tálukdári Settlement Office.	Local Expenses for Collection, &c.	Total Average Percentage.
1883-84...	4·24	6·01	10·25
1884-85	4·20	6·12	10·32
1885-86	4·11	6·63	10·74
1886-87	3·77	6·63	10·40
1887-88	3·68	6·06	9.74
1888-89	3·48	5·80	9·28

134. Nor have any charges of other descriptions, which should have been kept within proper bounds, increased steadily. In the first place, the "charges of all kinds," shown in the abstract, include the payment of the Government jama which, as will be seen from the table above given, is more than half the total amount of the charges. Again, in estates which were nearly at the end of their debts, and the revenues of which were large, a somewhat liberal, instead of a stinting, policy was observed in respect of requisitions for money made by the Thákors. For instance, in the last 3 or 4 years of their management, the estates of Ámod and Dehej in Broach received large sums of money for pilgrimage, for marriages, for building houses, and for other purposes. These grants were made because the estates could well afford them, as is shown by the fact that notwithstanding these grants the estates have discharged their debts and have been restored to their owners. In the year under report, I have spent more than in any previous year on the education of the sons of Tálukdárs; and this is certainly a good investment. In the case of poor estates, every vigilance, as regards expenditure, is exercised as a matter of course. In such cases, no such expenditure, even on education, is incurred, as would otherwise be desirable.

135. A comparison of percentages of collection, remission and outstanding balance to the total realizable revenue of the estates under management for the year under report with those of the previous two years is shown in the following table :—

	Year.	Gross Revenue, including Arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of Remission.	Percentage of Outstanding.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad	1886-87	2,32,126	2,09,935	2,248	19,943	90¼	1	8¾
	1887-88	2,33,793	2,06,000	2,464	25,329	88	1	11
	1888-89	2,80,984	2,48,438	2,000	30,546	88½	¾	10¾
Kaira ...	1886-87	1,02,003	99,759	317	1,927	97¾	⅜	1⅞
	1887-88	1,05,032	1,02,616	287	2,129	97⅓	¼	2
	1888-89	1,07,421	1,02,707	357	4,357	95⅔	⅓	4
Broach ...	1886-87	1,75,740	1,62,068	1,159	12,513	92	½	7½
	1887-88	1,91,965	1,58,008	1,850	32,107	82⅓	1	16⅔
	1888-89	1,23,169	80,769	2,564	39,836	65½	2	32½
Total ...	1886-87	5,09,869	4,71,762	3,724	34,383	92½	¾	6¾
	1887-88	5,30,790	4,66,624	4,601	59,565	87⅛	⅞	11⅝
	1888-89	5,11,574	4,31,914	4,921	74,739	84½	1	14½

136. It will be seen that, owing to the very unfavourable character of the season, the percentage of collection this year is much lower, and that of remission and outstanding correspondingly higher, than those of the last in Broach.

137. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district, and of all the three districts together as a whole, for the year under report :—

Collectorate.		Tálukdári Settlement Office.	Local Expenses for Collection, &c.	Total Average Percentage.
Ahmedabad	On realizable revenue ...	2·75	4·39	7·14
	On actual collection ...	3·11	4·56	7·67
Kaira	On realizable revenue ...	3·72	5·74	9·46
	On actual collection ...	3·89	5·98	9·87
Broach	On realizable revenue ...	2·67	5·33	8·00
	On actual collection ...	4·07	8·13	12·20
Total average percentage.	On realizable revenue ...	2·93	4·89	7·82
	On actual collection ...	3·48	5·80	9·28

138. It will be seen that these percentages are lower than those of the last year.

139. It has already been explained in a previous report that the lower percentage in Ahmedabad is owing to many of the estates there being leased out and not managed by Talátis. There is no expenditure on collection in these cases.

140. I think that, owing to several important estates going out of management, either a reduction in expenditure or an increase in the Government contribution towards the pay and allowance of the Tálukdári Settlement Officer will soon become necessary. Of settlement work proper, there is not now much to be done; and the Tálukdári Settlement Officer will, for some years, be chiefly engaged in partition of estates and revision of jama settlement, the latter of which is purely Government work.

Legislation.

141. Under the head of Legislation, I have only to record that what was known as the Tálukdári Bill has, at last, passed into law—Gujarát Tálukdárs' Act VI of 1888.

142. Nothing further is heard of the Bill for consolidating the law relating to minors, which was referred by the Government of India for opinion, and on which I reported about three years ago.

Procedure under Section 31 of the Gujarát Tálukdárs' Act.

143. I have, in my letter No. 222 of 3rd April 1889, to the Collector of Ahmedabad, suggested the desirability of laying down some procedure in respect to clause 2 of Section 31 of this Act, which requires the previous sanction of Government to sales of Tálukdári lands. This letter awaits the orders of Government.

144. For an encumbrance of Tálukdári lands to hold good beyond the life-time of the encumbering Tálukdár, clause 1 of the section above-quoted requires the previous consent of the Tálukdári Settlement Officer. One of the objects of this clause is to bring the advice and supervision of the Tálukdári Settlement Officer to bear upon the borrowings of the Tálukdárs. Now, among others, the two prevailing faults of the Tálukdárs are that they are always prone to borrow more than their real necessities require, and that in their eagerness to borrow, they blindly yield to any terms, however injurious, demanded of them by the Bania.

145. In the few cases that have come before me for sanction, since the passing of the Act, I have made the following enquiries :—

1.—For what purpose does the Tálukdár want to borrow ?

2.—What amount does he want to borrow ?

3.—If the money is wanted to pay off an old creditor, what is the amount of the old debt, and where are the bonds, accounts, &c., of the old creditor ?

4.—What is the rate of interest on the old debt and at what rate the new loan is to be taken ?

5.—What is the approximate net income of the Tálukdár after defraying Government jama, &c., and how much of it does he want to set apart for the liquidation of proposed loan, and is it sufficient to liquidate it within a reasonable time ?

146. After making the above enquiries I obeserved the following conditions in giving my consent :—

1.—If the new loan is required to pay off an old one, it should not, as a rule, exceed the amount of the old.

2.—The interest in the new loan should be as much as possible less than that on the old one.

3.—If the loan is required for marriage, death or other expenses, its amount should only be such as the nature of the occasion and the Tálukdár's position and ability to repay would permit.

4.—The land to be written over in mortgage for the loan should be left in the management of the Tálukdár on the conditions of his making the stipulated annual payment to the creditor, and on his failing to do so, to be made over to the Tálukdári Settlement Officer for management and payment to the creditor. But as far as possible, the management should not be given in the hands of the creditor, as by doing so the Tálukdár is cheated and harassed in several ways. Where, however, the land is made over to the possession of the creditor, provision for the payment of the Government jama as a first charge on the land should be made.

5.—Where the loan is taken to pay off an old debt, the bond, &c., of the old creditor should be fully receipted, cancelled and shown to the Tálukdári Settlement Officer.

6.—The draft of the bond for the new loan to be shown to the Tálukdári Settlement Officer in order to see that there is no condition in it injurious to the interest of the Tálukdár.

147. Such, in brief, were the views by which I guided myself in giving my consent. It may be said that all this is too much paternal care, which will never enable the Tálukdár to walk without crutches. But I think, with deference, that in the present condition of the Tálukdárs this paternal care is necessary for some time, and Government have, in this case, practical political considerations more in view than abstract economic theories.

Resumé.

148. The following is a resumé of the operations of this department during the year under report in all the districts under the several heads mentioned :—

1. Estates under managment—326.
2. Their total revenue—Rs. 4,57,499.
3. Amount collected—Rs. 4,31,914.
4. New estates brought under Act VI of 1862—5.
5. Decrees received from the Civil Courts for execution—149.
6. Decrees, inclusive of those brought over from previous years, executed by compromise, sale, management, &c.—343.
7. Amount paid to private creditors—Rs. 71,764.
8. Amount paid to Government—Rs. 65,502.
9. Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses—Rs. 61,592.
10. Paid for Government jama—Rs. 1,36,764.
11. Paid for expenses of collection, supervision, &c.—Rs. 40,088.
12. Minors' money invested in Government securities—10,000. Total amount of investment—30,000.
13. Estates partitioned and under partition—1.
14. Original suits and appeals—31.
15. Revenue of 356 Tálukdári villages in the Ahmedabad Collectorate under the revenue charge of this office, collected—Rs. 3,68,297.
16. Percentage of collection, remission and outstanding to total realizable revenue—84½, 1 and 14½.
17. Percentage of collection and management charges to total realizable revenue and to actual collection—7·82 and 9·28.

Establishment.

149. I have already, in previous reports, borne testimony to the diligence with which the members of the office establishment have done the heavy work devolving on them. The work of this office has considerably increased since the establishment was fixed in 1870 on the scale of that of a First Assistant Collector. There are only 3 Kárkúns and a Shirastedár in the vernacular branch of the office, and, unlike the establishment of a First Assistant Collector, they have to do the work of several descriptions of estates in the Collectorates of Ahmedabad, Kaira and Broach. They are able to overtake this heavy work only by hard and continuous labour. The decree kárkún has also much to do. The oldest man on the establishment is Mr. Hathising Ráechand, Head Clerk and Accountant. He is a very intelligent and useful man. If he had remained in the Collector's department from which he was transferred here, he would have, by this time, risen much higher by his intelligence and ability. But in this isolated office he has become a fixture. In consequence of the additional work that will be thrown on it by the new Tálukdári Act, a re-organization of the office establishment will soon become necessary, and I trust that a suitable increase to his pay will be made in this re-organization. The present pay of his appointment is quite fair for a new employé; but his has become a special case from his long service without promotion, usefulness and intelligence. He should receive some suitable personal allowance. The Shirastedár A'zam Shivshankar Bechar is also a useful man in his line. He has some acquaintance with past vernacular correspondence.

I have the honour to be,
Sir,
Your most obedient Servant,
PESTANJI JAHA'NGIR,
Tálukdári Settlement Officer.

ACCOMPANIMENT TO THE TA'LUKDA'RI SETTLEMENT OFFICER'S No. 510 OF 31ST JULY 1889.

APPENDIX XI.

List of Civil Suits conducted by or on behalf of the Tálukdári Settlemen t Officer.

No.	Name of Plaintiff.	Name of Defendant.	Subject.	REMARKS.
1	2	3	4	5
		SUITS PENDING AT THE CLOSE OF LAST YEAR.		
		AHMEDABAD COLLECTORATE.		
1	Trikamlál Vadilál, &c., heirs of Vadilál Pánáchand of Ahmedabad.	The Tálukdári Settlement Officer. The Inámdárs of Dharoda.	To recover the amount of mesne profits of the share of Ladli Begam in the village of Dharoda, which share the plaintiffs allege that they have purchased at an auction sale.	A decree for the plaintiff has been passed.
2	Máhárána Shri Jaswatsingji Fattehsingji of Limbdi.	The Secretary of State for India.	To establish that no jama can be levied on the portion of the village of Akru which was given to the Grássias of that village, as the jama is included in his permanently settled lump sum, and to recover back the amount already paid for Samvat 1941 and 1942.	The suit has been rejected with costs; against this the plaintiff has filed an appeal in the High Court, which is pending. Government Resolution No. 2714 of 1st May 1888.
3	Punja Ladha, deceased, by his heirs Jiwan and Kuwarji Punja, &c.	The Collector of Ahmedabad as Administrator of the estate of the minor Nársing Madársing of Akru.	To recover money due on a bond.	The lower Courts have rejected the claim. An appeal in the High Court has been filed; it is pending.
4	Jiwandás Ánandj of Gogha ...	The Secretary of State for India.	To establish that no more jama can be levied from him than what may be due on the land purchased by him and actually came into his possession, and to recover back the excess levied from him.	The claim has been rejected with costs. The plaintiff has filed an appeal which is pending—Government Resolution No. 8453 of 12th December 1887.
5	Oghad Odha of Nagarka ..	The Collector of Ahmedabad as Administrator of the estate of Bhura Jasa, minor, of Nagarka.	To obtain possession of certain fields and to recover rent of the same.	Settled amicably.
		KAIRA COLLECTORATE.		
6	Haridás Veridás and others of Nadiád.	The Tálukdári Settlement Officer.	To recover possession of certain land in Khodwad which is alleged by the plaintiffs to have been purchased.	The plaintiff's appeal in the High Court has been rejected with costs—Government Resolution No. 4813 of 23rd July 1887.
7	Dámodar Lálbhái of Nadiád ...	Thákor Mádhavsing Kesrising of Bhetasi. The Tálukdári Settlement Officer.	To recover rent of certain land and houses in Bhetasi which the plaintiff alleges to be his property.	The High Court has remanded the case for re-trial; it is pending in the lower Court—Government Resolution No. 1909 of 28th March 1887.
8	Rámdás Dharamdás of Dabhan.	The Collector of Kaira as Administrator of the estate of minor Wakhatsing Adesing of Kaira. The Tálukdári Settlement Officer as Manager of the estate of Rattansing Jijibhái of Kaira.	To recover back a certain amount of Government salámi which he alleges to have been recovered in excess of the amount due on the lands of Dabhan in his possession.	The claim has been rejected with costs. Against this decision the plaintiff has filed an appeal in the District Court, which is pending—Government Resolution No. 310 of 16th January 1888.
9	Dámodar Lálbhái of Nadiád ...	The Manager of the estate of Mádhavsing Kesrising of Bhetasi.	To recover rent of a field which he claims to be his property.	The claim has been rejected with costs. He has filed an appeal in the District Court which is pending—Government Resolution No. 6334 of 19th September 1888.
10	Do. do. ...	Do. do.	To recover value of certain trees which he alleges to be his property.	Do. do. Government Resolution No. 6333 of 19th September 1888.

APPENDIX XI—*continued.*

No.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	3	4	5
		BROACH COLLECTORATE.		
11	Sardársing Himatsing of Sarod .	Ganpatsingji Himatsinji. The Manager of the Sárod estate.	To establish that he is entitled to the *gádi* of the Sarod estate, or an equal share therein.	Rejected with costs. Plaintiff has filed an appeal in the High Court which is pending—Resolution No. 3224 of 23rd May 1887.
12	Thákor Ráesingji Jaswatsingji, minor, by his guardian and mother Rájuba of Sigám.	The Tálukdári Settlement Officer as Manager of the estate of Jetsingji of Sigam.	To recover back rent of a field and house levied from plaintiff, who alleges that he being the owner of the property, no levy can be made.	Pending—Government Resolution No. 3875 of 14th June 1888.
		NEW SUITS FILED DURING THE YEAR.		
		AHMEDABAD COLLECTORATE.		
13	Máhárána Shri Jaswatsingji Fattesingji of Limbdi.	The Secretary of State for India.	To establish that no jama can be levied on the portion of the village of Akru which was given to the Grássias of that village, as the jama is included in his permanently settled lump sum, and to recover back the amount already paid for Samvat 1943.	Pending—Government Resolution No. 5844 of 30th August 1888.
14	Kasalsing Nánjibhái and others of Bhariád.	Latiffkhán Sardár Mahomed of Dholka. The Tálukdári Settlement Officer.	To recover a share of the income of certain fields, &c., in Návda which was received by the defendants for 1885, 1886 and 1887.	Compromised.—Government Resolution No. 15 of 3rd January 1889.
15	Do. do.	Do. do.	To recover possession of a field which they claim to be their jivái field and to enjoy Meman Bapti in full.	Do. do.
16	Kuber Harishankar of Viramgám.	The Collector of Ahmedabad as Administrator of the estate of minor Dhanaji Gobarsing of Dekaváda.	To recover money due on a bond.	Pending.
17	Jamnádás Nánchand of Dholka.	The Collector of Ahmedabad as Administrator of the estate of minor Bháijibhái Rámábhái.	Do. do.	Do.
18	Lallu Jagjiwandás of Detroj ...	The Collector of Ahmedabad as Administrator of the estate of Dhanaji Gobarsing. Partapsing Prathiráj and 11 others.	Do. do.	Do.
19	Mohan Karsan and others of Bávla.	The Collector of Ahmedabad as Administrator of the Gángad estate.	To recover back the amount levied on account of Local Fund Cess on the lands in their cultivation which they claim to hold at a fixed rental.	Do.
20	Grássias of Akru	The Secretary of State for India in Council. The Collector of Ahmedabad as Administrator of 3 minors' estates.	To establish that their share of Akru is not liable to the payment of jama and to recover the jama for Samvat 1944 collected by attachment.	Do.
		KAIRA COLLECTORATE.		
21	Sanabhái Sidkar of Dabhan ..	The Tálukdári Settlement Officer as Manager of the estates of Wakhatsing Adesing and Rattansing Jijibhai of Kaira.	To establish that no more can be levied from him than the amount mentioned in the lease of the wánta of Dabhán which is alleged to be a permanent one, and to recover the excess levied from him.	Pending—Government Resolution No. 283 of 12th January 1889.

The figures marked with "R." in Column 7 are on account of remissions granted during the year.

PESTANJI JAHANGIR,
Tálukdári Settlement Officer.

No. 2473 of 1889.

Revenue Department.

Poona, 9th August 1889.

Forwarded to Government.

2. The number of encumbered estates under the management of the Tálukdári Settlement Officer during the year under report was 47 in Ahmedabad, 52 in Kaira, and 8 in Broach. There were also 40 minors' and 5 miscellaneous estates under his management, besides 356 Tálukdári villages. Of the encumbered estates, 7 in Ahmedabad, 2 in Kaira and 1 in Broach have been released, while 5 have been added in the first-named district. Three minors' estates were put under the charge of the department, while two were removed from management.

3. Except in Kaira, no advances were made by Government to encumbered estates during the year. In Kaira the sum of Rs. 2,500 was advanced to one estate with the sanction of Government, but of this amount Rs. 2,000 only were expended. The Tálukdári Settlement Officer gives a good account of Makhiáv estate and it will be observed that another, *viz.*, Ánandpura, will shortly be released, the remaining debt being only Rs. 40. The accounts of the estates of Khoda and Eyáwa are not encouraging. The settlement of the several Avania estates with one exception has been effected. The last of the sharers, referred to in paragraphs 37 and 38, appears to be obstructive. The litigation in which the Gángad Estate is involved, in consequence of the claim set up in behalf of the posthumous son of the late heir-apparent, is still pending. The estate is heavily involved, and it will be seen that while it has been under management a large sum has been paid in liquidation of debts.

4. The following table shows the total amount of debts at the commencement and close of the year and the payments made by the encumbered estates in three districts :—

	Debt at beginning of year.			Payments.			Debt at end of year.			Reduction of Debt.	Percentage Reduction of Debt.
	To Creditors.	To Government.	Total.	To Creditors.	To Government.	Total.	To Creditors.	To Government.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Ahmedabad	55,126	1,20,250	1,75,376	8,140	21,596	29,736	60,722	1,06,375	1,67,097	8,279	4¼
Kaira	10,085	2,48,976	2,59,061	2,955	31,811	34,766	7,691	2,35,371	2,43,062	15,999	6⅛
Broach	44,273	72,810	1,17,083	4,075	12,971	17,046	40,198	64,593	1,04,791	12,292	10½
	1,09,484	4,42,036	5,51,520	15,170	66,378	81,548	1,08,611	4,06,339	5,14,950	36,570	

The payments made in Ahmedabad are considerably larger than in the preceding year, but the ratio of reduction of debt has fallen from $6\frac{1}{4}$ to $4\frac{3}{4}$ per cent. (not $11\frac{1}{2}$ per cent. as stated by the Tálukdári Settlement Officer in paragraph 15). It will, however, be seen that owing to the accounts having been made up to the end of July instead of March a larger amount of interest (for the 4 additional months) had to be met and this has tended to some extent to reduce the ratio. Moreover, fresh liabilities amounting to Rs. 13,736, were added during the year. In Kaira the ratio remains the same though payments in excess of last year were made. The sum of Rs. 2,000 was advanced by Government during the year and a fresh liability of Rs. 561 was added. In Broach the comparison is most unfavourable, but last year owing to the Thákor of A'mod having been enabled by the receipt of a large sum due to him by Government to clear his estate of debt, the ratio was abnormally high. The reduction of $10\frac{1}{2}$ per cent. in Broach is higher than in Ahmedabad or Kaira.

5. Of the 39 minors' estates 10 are unencumbered, and of these the Mátar and Jhánor Estates in Broach are in a very prosperous condition. The Tálukdári Settlement Officer has paid proper attention to the education of the minors under his charge.

6. Considering the unfavourable season, the collection of the Government jama in the Tálukdári villages was promptly effected; but it will be seen from paragraph 96 that in many cases the amount was borrowed for payment. The question of the remission of the balance of the jama due from the village of Návda should form the subject of a separate communication as it is not one which can be dealt with in an administration report.

7. The proposal in paragraph 107 regarding the substitution of stone boundary-marks is also a subject which cannot be dealt with in this place; the Tálukdári Settlement Officer will be requested to submit any proposal he has to make on the subject through the Collector of Ahmedabad and the Survey and Settlement Commissioner.

8. The subject of the execution of Civil Courts' decrees has already been dealt with in the annual report submitted under this office No. 1220, dated 20th April 1889, to Government in the Judicial Department.

9. The suggestion made in paragraph 120 is apparently one which has been dealt with in a separate report submitted to the Collector, and needs no further notice here.

10. The explanation of the Tálukdári Settlement Officer in paragraph 133, regarding the charges of management, appears to be satisfactory. The question mooted in paragraph 140 is however one of considerable importance, and it is for the consideration of Government whether the time has not arrived when the pay and allowances of the Tálukdári Settlement Officer and his establishment should be revised.

11. The Commissioner, N. D., has carefully perused the extra note recorded by Mr. Sheppard when forwarding the report for 1887-88. A terrible state of affairs was therein brought to light, the result being that the labours of the Tálukdári Settlement Officer had in many cases been utterly thrown away. Mr. Propert has not yet had time to make himself thoroughly acquainted with the new Bill (now Act VI of 1888) alluded to by Mr. Sheppard, but will do so shortly.

12. The present is the last report which will issue from the hands of Mr. Pestanji Jahángir, and the Commissioner, N. D., cannot but regret the departure of an officer who has for so long held charge of the office.

W. H. PROPERT,
Commissioner, N. D.

Annual Reports: Administration Report of the Tálukdári Settlement Officer for the year 1888-89.

No. 8641.

REVENUE DEPARTMENT.

Bombay Castle, 14th November 1889.

Memorandum from the Commissioner, N. D., No. 2473, dated 9th August 1889—Forwarding with his remarks a letter No. 510, dated 31st July 1889, from the Tálukdári Settlement Officer who submits his Annual Report for 1888-89.

RESOLUTION.—There was a net increase of 4 in the number of the encumbered estates of Ahmedabad Tálukdárs which were under the management of the Tálukdári Settlement Officer during the year under report. Five new estates were brought under the Act and one was removed from management, the total at the end of the year being 37. In Kaira the number of encumbered estates was reduced from 52 to 50 and in Broach from 8 to 7. These reductions were brought about by the discharge of the debts by which the estates were encumbered. In Ahmedabad there were 10 estates which, though removed from the operations of Act VI of 1862, were still under management, their debt to Government being undischarged. The number of minors' estates managed by the Tálukdári Settlement Officer was 30, and 189 other estates were for various reasons in his charge.

2. In Kaira the sum of Rs. 2,000 was advanced by Government towards the payment of creditors. In neither of the other districts was such an advance made. The financial position of the estates in the 3 districts is shown in the following table:—

	Debt at the beginning of year.			Payments during the year.			Addition to debt during year.	Debt at the end of the year.			Reduction of debt.	Percentage reduction of debt.
	To creditors.	To Government.	Total.	To creditors.	To Government.	Total.		To creditors.	To Government.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Ahmedabad ...	55,126	1,20,250	1,75,376	8,140	21,596	29,736	13,736	60,722	1,06,375	1,67,097	8,279	4¾
Kaira... ...	10,085	2,48,976	2,59,061	2,955	31,811	34,766	561	7,691	2,35,371	2,43,062	15,999	6¼
Broach ...	44,273	72,810	1,17,083	4,075	12,971	17,046	...	40,198	64,593	1,04,791	12,292	10½
Total ...	1,09,484	4,42,036	5,51,520	15,170	66,378	81,548	14,297	1,08,611	4,06,339	5,14,950	36,570	

The results of the year's management are on the whole satisfactory. Owing to the exceptional circumstances of the previous year when the Thákor of A'mod was enabled by the receipt of a large refund from Government to clear himself from debt the percentage of reduction in the Broach District does not compare favourably with the percentage of 1887-88, but the percentages for Kaira are almost the same in both years, and it is observed that in Ahmedabad, though the percentage reduction shown in the above table is very low, it would have been much higher than in the previous year but for the additional award made in the year under review. The total reduction of debt was considerably less in the year under report than in the previous year, the decrease being almost altogether in the Broach District, and being due to the large amount refunded in 1887-88 to the Thákor of A'mod. The question of paying off the creditors of the Bodána estates by means of an advance from Government is one which need not at present be taken into consideration as the estates will remain for eight years more under the management of the Tálukdári Settlement Officer.

3. The number of minors' estates under Act XX of 1864, shown in Mr. Pestanji Jahángir's 74th paragraph, does not correspond with that given in his 2nd paragraph. The discrepancy should be explained. The condition of these estates seems to be on the whole satisfactory. His Excellency in Council notices with pleasure the attention bestowed by Mr. Pestanji Jahángir on the education of the minors whose estates are in his charge, and the measures which he has taken to provide for it.

4. The amount of the jama realized in the Tálukdári villages in Ahmedabad, which are under the revenue charge of the Tálukdári Settlement Officer, was Rs. 3,68,297. This collection left an outstanding balance of only Rs. 4,300, and in view of the very unfavourable nature of the season this result must be regarded as satisfactory though His Excellency in Council observes with regret that a large part of the payment was made with borrowed money. The amount expended from Local Funds in the Tálukdári villages seems disproportionate to the realisations from those villages and Government trust that in future care will be taken to give to those villages their fair share of the Local Fund collections derived from them in the form of works of local utility.

5. As regards the financial results of the management of the estates during the year under report it is to be noticed that the total revenue realized including past year's balance in hand amounted to only Rs. 6,11,657 as against Rs. 7,07,499 in 1887-88. This decrease is attributable to the unfavourable nature of the season. The charges also show a falling off, the figures for the two years being Rs. 3,30,218 and Rs 2,51,570 respectively. In view of the remarks made in paragraph 5 of the review of the Tálukdári Settlement Officer's last annual report this decrease is satisfactory. Mr. Pestanji Jahángir has this year given a more detailed account of the charges of management, and from this it appears that the expenses under this head have remained at very much the same figure for some years, the tendency being rather towards decrease than increase. "Charges of all kinds" include sums expended on the maintenance and education of Tálukdárs and as regards these the Tálukdári Settlement Officer explains that in the case of estates which have large incomes and which are within a short time to be free from their encumbrances he considers it only fair that a more liberal expenditure should be allowed than would be justifiable in the case of poorer and more heavily involved ones. In this view Government agree. The Tálukdári Settlement Officer should be requested to submit a detailed report on the subject referred to in his paragraph 140.

6. During the year the Gujarát Tálukdárs' Act VI of 1888 became law, and its working should be carefully noticed in the report for the current year.

7. His Excellency in Council concurs with the Commissioner, N. D., in regretting the termination of Mr. Pestanji Jahángir's connection with the Tálukdári Settlement Department in the work of which he has taken much creditable interest and which he has administered with a zeal and ability which have more than once obtained for him the commendation of Government.

J. De C. ATKINS,
Acting Under Secretary to Government.
